About Alpine Learning Group

For over 30 years, Alpine Learning Group has been transforming the lives of individuals with autism and their families by providing innovative, comprehensive, and scientifically validated services with a compassionate approach. We offer a full range of diagnostic and clinical services to individuals of all ages – bringing science and compassion together to create new possibilities for children and adults with autism and providing comprehensive support for you and your family.

Because we believe that no two learners or families are the same, we offer an innovative array of services based on the only scientifically proven approach, applied behavior analysis (ABA). Strengthened by personalized input from learners and their caregivers, our research-based programs, implemented by highly qualified professionals, help individuals with autism reach their fullest potential.

About The Fall Affair

We hope you can join us for a fun and inspiring evening. The Fall Affair is one of Alpine's two annual fundraisers; the money raised supports Alpine's programs serving children and adults with autism. There are a range of sponsorship opportunities available as well as other ways to get involved. Your support means so much.
